SKILLS & OTHER THINGS I KNOW-

I have skills in all the usual business stuff – computers / technology / social media both with PC's, Mac's, and other gadgets. What you don't know is I work well under pressure and in stressful environments. I know how to work well on a team but also will take initiative on my own. I am a hard worker. I know several different words in several different languages. I can handle constructive criticism, and take direction. I am a list person. I can do the traditional route but I prefer to be unique. I like people. I am stronger than you know. I love to be creative. I think differently.

LIFE ACHIEVEMENTS & ACOMPLISHMENTS -

This is the short list of my proudest accomplishments thus far in my life: traveling to all 7 continents in the world, earning my bachelors degree, obtaining my Series 7 license, attempting to sail around the world for 2 years, being President of my residence hall at ASU, then later becoming a Resident Advisor, winning an internship spot with the US Government Morale, Welfare & Recreation department in Berlin, Germany, achieving an EMT certification, successfully swimming across the English Channel on a 6-person relay team, completing my first 50-mile ultra run within the cut off time, receiving the Triple Crown award for three, 200 mile bike rides within 1 year, running the Antarctic Ice Marathon, and volunteering for Concerned Care for Cats as a foster to cats and kittens.
